

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: William Cummins  
DOCKET NO.: 03-22113.001-R-1  
PARCEL NO.: 03-31-207-032-0000

The parties of record before the Property Tax Appeal Board are William Cummins, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 40-year old, two-story frame and masonry dwelling containing 2,135 square feet of living area with a full, unfinished basement, central air conditioning, a fireplace, and a two and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located approximately 0.25 mile from the subject; two comparables are located approximately 0.5 mile from the subject; and the remaining comparable is located approximately 0.75 mile from the subject. The comparables are two-story frame, frame and masonry, or stucco dwellings that are 17 to 41 years old. Two of the comparables have unfinished basements, and two have partial basements. Each of the comparables has a fireplace and central air conditioning. Information on garages was not disclosed, although photographs supplied by the appellant indicate that at least two comparables have garages, either two-car or three-car. The comparables contain 2,519 to 3,042 square feet of living area and have improvement assessments ranging from \$5.70 to \$8.25 per square foot. The subject property has an improvement assessment of \$11.35 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,804
IMPR.:	\$	24,223
TOTAL:	\$	31,027

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties. Two are located in the same tax block as the subject, and the third is located one block from the subject. The comparable properties consist of two-story frame and masonry dwellings that are 40 to 44 years old. Two of the comparables have full, unfinished basement, and one has a partial, unfinished basement. Each comparable has a two-car garage, central air conditioning, and a fireplace. The dwellings contain 2,154 to 2,310 square feet of living area and have improvement assessments of \$11.75 to \$12.09 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable two differed significantly in age from the subject, and comparables one, three, and four differed substantially in size from the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The board of review's comparables were the most similar to the subject property in age, location, and physical characteristics. These comparables had improvement assessments of \$11.75 to \$12.09 per square foot and support the subject's improvement assessment of \$11.35 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject properties, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject

dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
